

## My Story & Your Services Northern Lights Canada

---

October 7, 2013

I would like to share a little bit of my story for your use in any forms of advertising and such as, you see fit to use if you wish.

In the winter of 2010, my employed hours of work became less and less until I had over one month with no work or income what so ever, resulting in my quitting my job in search of other employment opportunities. I searched daily for employment in various fields due to over 30 years of various work experiences.

I went into the Northern Lights Canada Employment Centre located on Chemong Rd., Peterborough, ON, talked to an employee named Wendy Martin. I signed up and have been a client of Northern Lights for almost on two years now, under the guidance and direction of Wendy Martin. The services that Northern Lights Employment Centre and Wendy Martin have been very beneficial in both training of different workshops and programs, and the employment opportunities it provided. At the point in my employment search, that Wendy Martin felt I would benefit from further assistance she connected me with Mike Walker. Mike and I spoke several times where he had passed along potential job offers and connections for employment. Finally, through his diligent effort, I was successful with acquiring employment. The job is currently a temporary job offer with potential for an extension.

The way I see things is that even a temporary job is better than no job. I am very grateful to Wendy Martin, Mike Walker and the services of Northern Lights Canada, for all that was offered and provided. I will keep my connection and contact with both Wendy and Mike to let them know if the job becomes permanent.

Again, I thank you for everything.

Sue LaGrandeur
